

JOSEPH

CRAFT

ITEMS NEEDED: Paper, pen, construction paper, scissors, glue sticks

ADVANCED PREPARATION: Print the included Joseph's Coat page. Make enough copies of the sheet for each kid to have one. Cut several colors of construction paper into strips of varying sizes (*but all smaller than the coat outline*).

DIRECTIONS: Give each kid a coat paper, a selection of color strips, and a glue stick. Let them create their own “coat of many colors” as they wish.

Alternately, you could decorate the coat with solid color stickers instead of using construction paper and glue.
